

Julie's Elite

HEALTH CLUB

According to a study released in January 2016, more than 50% of doctors spend 10-15 minutes with their patients and 10% spend less than 8 minutes. A Julie E Health membership will focus on total health from head to toe. Julie E will spend an entire hour focused on you and your health. That's more than 400% the amount of time your doctor pays attention to you at your annual checkup! And we have hundreds of remedies that heal you (your doctor only has antibiotics).

“
I want you to
experience
great sleep,
tons of
energy and
especially,
have mental
clarity
each and
every day.

— Julie E

PREVENTION

is the least expensive and best way to ensure continued health. For this reason, Julie's Elite Health program was born.

We get an oil change every 3,000 miles, and we buy new towels and sheets every couple of years. What about maintaining our bodies? We run, play, travel, and persevere. When do we take adequate time to detox and heal? With so many surprising health tragedies in today's world, we must take care of our bodies and minds on a regular basis. After all, our body is our temple, and we have to live in it. I want to live radiantly; How about you?

The credit card will be charged on the 1st of the month, quarter, and Jan and July (for annual/biannual) and must be used within the time frame for which you signed up. Sessions will not roll over. Julie E Health requires 30 days' notice to terminate or change membership.

JULIE'S MISSION

Julie E knows that it's easy to be healthy when you focus on the Simple Solutions.

Julie E builds health from the standpoint that your body is made of energy, and everything is connected.

Julie E hopes to empower individuals and groups to learn about their bodies and find true health.

"Julie is more thorough than my doctor has ever been."

—Lety, business exec. and mom

"I've been a member for years. I wouldn't miss a month, as my session always makes my life better."

— Liane, mom, grandma, and business exec.

Regular visits allow for deeper healing. Illness comes from stress and stagnant energy.

Make your health a priority!
