

Since 1971

## TP30

Fillet Machine

### Cutting Groups

- 2-blade – 3 fillets | ~8mm/0.31"
  - For thicker portion cuts
- 3-blade – 4 fillets | ~6mm/0.23"
  - Standard setup, can drop to a 1-blade /2-fillet config for extra-thick cuts
- 4-blade – 5 fillets | ~5mm/0.19"
  - For deli-thin, high-yield slicing
- SS skirt steak (2-blade, 3 fillets, separate top belt assembly) - swap setups instead of buying a second machine

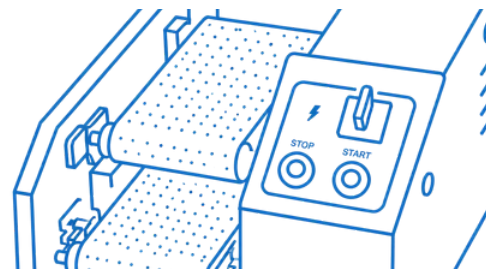

### Overview

- Stainless steel construction – durable, NSF-certified, and built for daily sanitation
- Produces up to 75 fillets per minute, consistent output for high-volume operations
- Quick-release belts and blades for fast, tool-free cleaning
- Compact tabletop design – fits any deli counter or prep area

### Specifications

- Cutting capacity
  - Thickness: 45mm | 1.77"
  - Width: 120mm | 4.72"
- 115V / 60Hz | 97lb
- Overall Dimensions: 19.4" × 21.9" × 13.8"
