Pachamama Regen
Soil Health System

ONE SYSTEM, FIVE TOOLS, ONE OUTCOME PERMANENTLY HEALTHY SOIL

WHY OUR SOIL SYSTEM WORKS:

- Builds soil carbon and structure
- Increases microbe population
- Improves water and nutrient holding capacity
- Delivering greater yield, nutrient density and growth

BIOCHAR COMPOST

Biochar + nutrient-rich compost

- Up to 30% more yield and growth
- Improves soil structure and moisture retention
- Supports microbial life and nutrient cycling
- Ideal for gardens, orchards, trees and beds
- Available in a 15L bag or 5L tub

BIOCHAR GRASS BOOSTER

Fine biochar + nutrient-rich biofertiliser

- Thicker, healthier grass
- Reduced irrigation requirements
- Ideal for lawns, sports turf and landscapers
- Available in a 15L bag or 5L tub

ROCKCHAR

Basalt rock dust + nutrient-enriched biochar

- Replenishes trace minerals
- Supports long-term soil fertility
- Ideal for gardens, orchards, trees and lawns
- Available in a 5L tub

LIQUID CHAR BIOFERTILISER

Blend of micronised biochar & fermented worm-cast liquid

- Microbial and nutrient rich
- Ideal for vegetable gardens, lawns, plants, trees
- Available in a 2L bottle

BIOGOLD BIOFERTILISER

Fermented worm-cast liquid

- Microbial and nutrient rich
- Ideal for vegetable gardens, lawns, plants, trees
- Available in a 2L bottle

All Pachamama Regen products are:

- 100% Australian made
- Designed for long-term soil health
- Compatible with regenerative and organic systems
