

AI TaskMasters Terms of Service

Effective September 27, 2026 • aitaskmasters.net

These Terms form an agreement between you and Your AuTHINTic Self LLC, operating under the AI TaskMasters brand.

These Terms of Service govern your use of aitaskmasters.net and your purchase or use of AI TaskMasters workshops, coaching, courses, downloads, recordings, toolkits, and other educational products and services. By completing a purchase, registration, or other clearly presented acceptance step, you agree to these Terms.

1 Services covered by these Terms

AI TaskMasters provides educational and professional-development offerings that may include live workshops, coaching, digital courses, downloadable guides, templates, worksheets, recordings or replays, digital toolkits, and other digital products and educational resources. Specific descriptions, dates, deliverables, access periods, prices, and eligibility requirements are stated on the applicable offer page, checkout page, order confirmation, or written agreement. If an offer-specific written term conflicts with these Terms, the offer-specific term controls for that offer.

2 Eligibility and accurate information

You must be able to enter a binding agreement where you live. You agree to provide accurate, current information when registering or purchasing and to update it if necessary. If you purchase or register on behalf of an organization, you represent that you are authorized to do so.

3 Payment and registration

- Prices and available payment options are shown at checkout or in a written offer. You authorize the applicable third-party payment processor to charge the payment method you provide.
- Your registration or access is not confirmed until required payment is completed and AI TaskMasters issues a confirmation, ticket, access notice, or similar acknowledgment.
- You are responsible for reviewing the offer details, entering a working email address, checking your inbox and spam or promotions folders, and completing all access steps by the stated deadlines.
- Some online workshops require a separate Zoom registration. Purchasing a ticket does not replace that step. You are responsible for following the Zoom registration instructions and completing registration in time to receive the correct access link.
- Taxes, currency conversions, internet access, devices, third-party subscriptions, and other costs not expressly included in an offer are your responsibility.

4 Bring a Friend tickets

A Bring a Friend offer permits the purchaser to designate one eligible friend for the specific workshop or offer identified. The purchaser must provide the friend's accurate name and email address, with the friend's knowledge, so AI TaskMasters can issue the friend's ticket and send workshop details and Zoom registration instructions. A friend's ticket has no cash value, may not be resold, and may not be applied to a different event unless AI TaskMasters agrees in writing.

The friend is responsible for checking email and completing required access steps. Providing a friend's information or accepting these Terms does not subscribe either person to marketing texts. Consent to marketing texts, if offered, is requested separately.

5 All sales final and refunds

All sales are final unless otherwise stated in writing for a specific offer.

This policy applies to digital products, downloadable materials, digital courses, live workshops, coaching, recordings or replays, and access-based services. Because capacity, preparation, scheduling, digital delivery, and immediate access may be involved, AI TaskMasters does not provide refunds, exchanges, or credits for change of mind, scheduling conflicts, failure to attend, failure to complete access steps, unused services, or dissatisfaction with personal outcomes, except where required by law or expressly stated in writing for the specific offer.

If AI TaskMasters cancels a paid event and does not provide a reasonable rescheduled option, AI TaskMasters may provide an appropriate refund or credit for the affected event. The form and amount will reflect the portion of the paid event that was not delivered. Nothing in these Terms limits non-waivable consumer rights.

6 Live workshops and missed sessions

Workshop dates, times, platforms, formats, and instructors may change for reasonable operational reasons. AI TaskMasters will use reasonable efforts to notify registered participants of material changes. If you miss a workshop or join late, no refund or replacement session is owed. A replay, recording, summary, or transfer is provided only if the offer expressly includes it or AI TaskMasters agrees in writing. Technical problems on your side, including internet, device, email, browser, or Zoom issues, do not create a right to a refund.

7 Coaching and access-based services

Coaching is educational and collaborative. You are responsible for your decisions, implementation, scheduling, preparation, and results. Sessions may be subject to offer-specific scheduling, rescheduling, expiration, and attendance rules. Unless a specific written offer states otherwise, unused or expired coaching time and access periods are not refundable or transferable. Coaching does not constitute legal, financial, tax, medical, mental-health, or other licensed professional advice.

8 Digital products, courses, and recordings

Digital products and educational resources may be delivered by download, email, course portal, link, or another access method. You are responsible for downloading or accessing materials within any stated access period and maintaining compatible technology. AI TaskMasters may make reasonable updates to content, hosting, access methods, or platform features. Unless an offer states otherwise, purchase gives you a limited personal or internal-business-use license, not ownership of the content.

9 Participant conduct

You agree to participate professionally and not to:

- Harass, threaten, discriminate against, disrupt, or invade the privacy of another participant, instructor, or staff member.
- Share access links, passwords, tickets, or restricted participant information without permission.
- Upload malicious code, interfere with a platform, impersonate another person, or use the services unlawfully.
- Solicit participants aggressively, collect participant contact information, or use confidential discussions for an unrelated commercial purpose.
- Record a session or capture participant communications unless AI TaskMasters and all required participants have given prior permission.

AI TaskMasters may remove a participant or suspend access for conduct that reasonably threatens safety, privacy, learning, technology, intellectual property, or the experience of others. A removal for violation of these Terms does not entitle the participant to a refund.

10 Intellectual property and permitted use

AI TaskMasters and its licensors retain all rights in AI TaskMasters-branded content, including workshop materials, presentations, curricula, frameworks, guides, templates, worksheets, videos, audio, recordings, replays, course content, digital toolkits, graphics, logos, and related materials. Your purchase or participation grants only the limited use rights expressly stated in these Terms or the applicable written offer.

Unless AI TaskMasters gives prior written permission, you may not:

- Record, copy, reproduce, publish, upload, distribute, share, resell, sublicense, or publicly display AI TaskMasters materials.
- Repackage, translate, adapt, remove branding from, or create a competing or derivative product from AI TaskMasters materials.
- Use materials to train an AI model, populate a shared content library, or provide access to people who did not purchase or register.
- Use AI TaskMasters names, logos, trademarks, or branding in a way that suggests sponsorship, certification, or affiliation without written permission.

11 Appropriate educator use

Educators may apply general ideas, skills, and strategies learned through AI TaskMasters in their own teaching or professional practice. They may explain those ideas in their own words and create original materials based on their own knowledge and experience. This permission does not transfer ownership of AI TaskMasters-branded content and does not permit copying, distributing, reselling, redistributing, repackaging, or presenting AI TaskMasters materials as the educator's own. Any license stated in a specific resource controls over this general provision.

12 Participant contributions

You retain ownership of original content you submit. You grant AI TaskMasters a limited license to host, display, reproduce, and use that content only as reasonably necessary to provide the service, facilitate participation, respond to your request, maintain records, or comply with law. Do not submit confidential, proprietary, student-identifying, patient-identifying, or other sensitive information unless the service specifically requests it and you have authority to provide it.

13 Third-party AI platforms and technology

Workshops, courses, and resources may demonstrate or refer to third-party AI platforms, software, websites, integrations, payment processors, Zoom, or other technology. Those services are operated by third parties and may have separate accounts, fees, age limits, availability, privacy policies, terms, output restrictions, and data practices. AI TaskMasters does not control and is not responsible for third-party services, changes, downtime, security, outputs, or decisions.

You are responsible for reviewing third-party terms and privacy practices and for deciding what information to enter into an AI platform. Do not upload confidential, personal, student, client, regulated, copyrighted, or proprietary information unless you have authority to do so and the platform is appropriate for that use. AI-generated output can be incomplete, biased, inaccurate, or unsuitable; you must review and verify it before relying on or publishing it.

14 No guaranteed results

AI TaskMasters provides education, examples, tools, and support, but does not promise any specific business, income, productivity, employment, academic, technology, or personal result. Outcomes depend on factors outside our control, including your starting point, judgment, effort, consistency, resources, market conditions, and third-party technology. Examples and testimonials illustrate individual experiences and are not guarantees.

15 Disclaimers

To the fullest extent permitted by law, the website, services, and materials are provided “as is” and “as available.” AI TaskMasters disclaims warranties that may lawfully be disclaimed, including implied warranties of merchantability, fitness for a particular purpose, non-infringement, uninterrupted availability, and error-free operation. These disclaimers do not limit any warranty or right that cannot legally be excluded.

16 Limitation of liability

To the fullest extent permitted by law, AI TaskMasters and its owners, employees, contractors, and service providers will not be liable for indirect, incidental, special, consequential, exemplary, or punitive damages, or for lost profits, revenue, data, opportunities, goodwill, or business interruption arising from the services, materials, third-party platforms, or these Terms.

To the fullest extent permitted by law, AI TaskMasters’ total liability for a claim will not exceed the amount you paid to AI TaskMasters for the specific product or service giving rise to the claim during the twelve months before the event giving rise to liability. These limitations do not apply where prohibited by law or to liability that cannot legally be limited.

17 Suspension and termination

You may stop using the services at any time, subject to the all-sales-final policy. AI TaskMasters may suspend or terminate access if you fail to pay, misuse the services, violate these Terms, infringe rights, create a security or safety risk, or if continued service is impractical or unlawful. Provisions concerning payment, intellectual property, disclaimers, liability, disputes, and other terms that logically should survive will remain in effect.

18 Privacy and communications

Our Privacy Policy explains how we handle personal information. Service-related emails and other communications may be necessary to fulfill purchases, issue tickets, provide Zoom registration instructions, or manage access. Agreement to these Terms does not constitute consent to receive marketing texts. Any marketing text consent is requested separately at the point of opt-in and may be withdrawn as described in the Privacy Policy.

19 Changes to services or these Terms

AI TaskMasters may modify services or these Terms to reflect operational, legal, security, or technology changes. Updated Terms will be posted at aitaskmasters.net with a revised effective date. Changes apply prospectively unless otherwise stated or required by law. Material changes to an already-purchased offer will not reduce the core paid benefit without a reasonable substitute, credit, or other remedy where appropriate.

20 Governing law and disputes

These Terms are governed by the laws of the State of Georgia, without regard to conflict-of-law principles, except to the extent federal law or non-waivable law of your jurisdiction applies. Before filing a formal claim,

the parties agree to make a good-faith effort to resolve the dispute informally by providing written notice and allowing a reasonable response period. If a dispute is not resolved, the parties consent to the state or federal courts located in the Georgia county where AI TaskMasters is headquartered, unless applicable law requires another venue.

21 General terms

If any provision is found unenforceable, it will be limited or removed only to the minimum extent necessary, and the remaining provisions will continue. A delay in enforcing a term is not a waiver. You may not transfer your rights or obligations without AI TaskMasters' written consent. AI TaskMasters may transfer these Terms in connection with a business reorganization or sale. These Terms, the Privacy Policy, and any offer-specific written terms form the agreement concerning the services and replace prior discussions about the same subject.
