

Medical Loan Closet Announces New Location Following Record-Breaking Growth

JOPLIN, MO — September 3, 2026 — The Medical Loan Closet of Joplin is celebrating a tremendous milestone in its mission to provide medical equipment to members of the community who need it.

As of September 1, 2026, the Medical Loan Closet has served 1,833 people and loaned 3,912 pieces of medical equipment to individuals and families throughout the community.

That tremendous growth, however, has brought an exciting new challenge: the Medical Loan Closet has officially outgrown its current space. To accommodate the growing need for its services and better serve the community, the Medical Loan Closet is moving to a new, larger facility at:

**Medical Loan Closet of Joplin
2195 Coyote Drive
Joplin, MO 64804**

Important Dates During the Move

To allow volunteers and staff time to safely move equipment, organize the new facility, and prepare for operations, the Medical Loan Closet will temporarily adjust its services.

- Equipment donations will be paused beginning Monday, September 7.
- The Medical Loan Closet will be closed September 15–21.
- The Medical Loan Closet will reopen Tuesday, September 22, at its new location at 2195 Coyote Drive.

The organization encourages those planning to donate equipment to wait until donations reopen after the move.

The Medical Loan Closet says the milestone would not have been possible without the generosity and support of the community.

Every donated piece of equipment, volunteer hour, financial contribution, social media share, and personal recommendation has helped the organization connect people with the medical equipment they need.

As the Medical Loan Closet begins this next chapter, the organization looks forward to welcoming the community into its new home and continuing its mission of helping neighbors access the medical equipment they need.
