VIRTUAL IT LEADERSHIP FOR YOUR BUSINESS

Executive Technology Confidence Assessment

Independent Technology Leadership
Driving Confidence. Reducing Risk. Creating Value.

Prepared for Acme Inc

Strong Foundation
Solid performance with opportunities to enhance resilience and future value.

Welcome from Usman Hussain

Thank you for trusting Ctrl Alt Lead to undertake this Executive Technology Confidence Assessment.

This assessment provides a clear, independent view of your technology environment, identifying strengths to build on, risks to address, and opportunities to create greater value for your business.

Our goal is simple: to help you build technology confidence, reduce risk, and enable growth through better decisions.

I look forward to discussing the findings and working with you on the next steps.

Usman Hussain

Executive Summary

Technology Confidence Index

78 /100

Moderate Risk

Solid foundation with key aspiring strategic focus.

TOP STRENGTHS

- Strong leadership and strategy engagement
- Robust security foundation in place
- Reliable IT operations and support
- Investment in core technology platforms

TOP RISKS

- Cyber security maturity needs improvement
- Governance and policy consistency gaps
- Business continuity planning requires strengthening
- Technology roadmap not fully aligned

EXECUTIVE RECOMMENDATION

Focus on strengthening security controls, formalising governance and building operational resilience to improve overall technology confidence and business agility.

See roadmap on pages 10-11 →

🚀 STRATEGY

82/100

SECURITY

68/100

GOVERNANCE

VIRTUAL IT LEADERSHIP FOR YOUR BUSINESS

The Five Pillars Assessed

Our assessment is based on five critical pillars that drive technology confidence and business success.

STRATEGY

82 / 100

Strong

Clear technology vision and leadership driving the right priorities.

SECURITY

68 / 100

Moderate

Core security controls in place with areas for improvement.

GOVERNANCE

74 / 100

Moderate

Policies and processes exist but need greater consistency.

VALUE

79 / 100

Strong

Technology investments delivering good value and efficiency.

RESILIENCE

71 / 100

Moderate

Business continuity and resilience require further maturity.
