

Life Sciences Capital Forum

An Invite-Only Leadership Roundtable Series

Purpose

Bringing Leaders Together Around Capital Execution

The **Life Sciences Capital Forum** convenes a curated group of leaders responsible for capital execution across the life sciences industry. The forum provides a private setting for peers to exchange insights on the challenges shaping facility expansion, validation, workforce readiness, and operational execution in today's rapidly evolving pharmaceutical landscape.

Our goal is simple: Create a space where experienced leaders can have honest, forward-looking conversations about the realities of delivering complex life sciences projects.

What This Is

A Moderated Roundtable Discussion Series

The forum is a **moderated roundtable discussion series** designed for executives and senior leaders involved in the planning, delivery, and oversight of life sciences capital projects.

Participants include leaders responsible for:

Capital Project Execution

Facility Expansion & Infrastructure

CQV & Validation Strategy

Engineering & Technical Operations

Workforce Planning for Major Programs

Compliance & Operational Readiness

Each session is designed to encourage **peer-level discussion**, insight sharing, and cross-industry perspective.

Format

How the Forum Works

Quarterly Virtual Roundtables

Small, moderated discussions with a curated group of industry leaders. Sessions focus on emerging challenges affecting capital project execution in life sciences.

Annual In-Person Gathering

A private leadership session hosted during INTERPHEX week, bringing together forum participants for deeper discussion and relationship building.

Thought Leadership Distribution

Select insights from each session are recorded and shared to advance industry dialogue around capital execution in life sciences.

Discussion Themes

What We Explore Together

Roundtables explore topics such as:

- **De-risking capital execution in life sciences**
- **Workforce strategy for large-scale facility expansion**
- **Inspection readiness during active capital programs**
- **Standardizing validation across multi-site operations**
- **Managing schedule compression in complex builds**
- **Digital transformation in facility and validation workflows**

Participation

An Intentionally Curated Community

Participation in the forum is **invite-only** and intentionally limited to maintain a high-quality discussion environment.

Sessions typically include **leaders** from across the life sciences ecosystem.

Pharmaceutical &
Biotech
Organizations

Engineering &
Capital Program
Leaders

Validation &
Operational Experts

Infrastructure &
Technology
Innovators

Guiding Principle

Open Dialogue Among Peers — Not Product Promotion.

Our belief is that the most valuable insights in this industry emerge when experienced leaders are given the opportunity to exchange perspectives in a trusted environment.

The forum exists to foster **open dialogue among peers**, not product promotion.

Invitation

Join an Upcoming Session

If you are responsible for shaping or executing capital initiatives within the life sciences sector, we welcome your participation in an upcoming session of the **Life Sciences Capital Forum**.

- Additional session details and invitations will be shared with confirmed participants.
