Damaged Items List

Create a detailed inventory of all damaged and destroyed contents in the basement, including item descriptions, approximate purchase dates, estimated values, and condition before the flood. Take clear photos and videos showing water levels, damaged walls and flooring, appliances, furniture, and personal belongings; capture both wide-angle views and close-ups of serious damage.

While insurance companies will work with you to assess the estimated damages and your coverage under your policy, it is your responsibility to ensure that very expensive or irreplaceable items have their own adequate coverage such as antique items, watch collections, unique electronics, firearms, etc.

DC Premier Construction is pleased to provide you with this document to help you throughout your claim.

Example:

Name: John Doe

Address: 1234 Main St, Toronto, ON, A1B 2C3

Policy Number: P12349876
