Prayers Against Astral Projection

They take and transfer a person's spirit into another world. Some of the spirits that find their way into a person's physical body are projected without awareness. There are astral projections that attack a person to control, manipulate, and divert a person's glory. A person using evil powers can allow the spirit of a person to come out of his own body. Such a person will now send such a spirit on a demonic assignment. Their satanic mission is to kill, steal, and destroy. When he has completed his evil assignment, his spirit gets back into a sleepy body. Many people ask if this kind of attack is still prevalent in this generation. They also ask if a person's spirit can travel wide while asleep. The correct answer is yes. The Bible says,

> *Matthew 13:25, But while men slept, his enemy came and sowed tares among the wheat, and went his way.*

The physical body of a person can be weakened when the spirit has done so many activities in the realm of the spirit. You can sleep in the same bed with a person whose spirit has traveled to another location for one demonic assignment or the other.

Your enemies can project these astral attacks to initiate and cage your spirit man in the witchcraft world. That is why we see many others are partly born again and partly witchcraft-possessed. The astral attack can summon a spirit out of a person through the projection of voodoo, enchantment, divination, magic, or other types of juju powers. One of the plans of the devil is to keep us from our inheritance and relationship with God. So he has created this form of soul travel for his purposes. When a soul leaves the body, the body is then open to be inhabited by other spirits, demonic or humans from the spiritual world. As our soul travels around it is subject to attack itself, by demonic spirits that can do astral rituals on it, or even have sex with it.

Through the astral attack, the demons can successfully travel to attack a physical body through dreams. Somebody can be in Nigeria and flies through astral travel to the United States. This is a situation where the human spirit operates without the body. When a person is flying in a dream, it is called an astral attack. A situation when a certain spirit enters a person is known as astral projection. The ability for a person to fly around to travel a far distance is known as an astral attack. Many occult people use astral travel as a means to wreak havoc on their victims. These astral travelers perform astral rituals over people, spy on people, harass them, monitor them, and much more. They can inflict damage on the souls of people.

These include: Sand, stones, clothes, a wedding ring, a cup, a dog, snakes, a person, sun, food, water, cream, shoes, a cap, etc Astral Rituals Astral ritual is a witchcraft ritual that is done by a human spirit or a group of human spirits. They find a place in the spiritual realm to set up an altar and perform a ritual. It is exactly the same as a physical ritual but done in the spiritual realm instead. These astral rituals directly affect whoever they are being done on or over. Because these are done in the spiritual realm, the person who is the victim of the ritual will not even know it is happening. They will feel the effects of it, but they won't know what they are feeling or why. Most likely they will feel some sort of emotional torment, devastation, a sense of falling apart, an inability to function, and things of that nature.
