

Calm Work Solutions

Data-Backed Performance

A five-week pilot study with 15 participants demonstrated rapid and sustained improvements in wellness and cognitive indicators:

- 65% improvement in restorative sleep quality.
- 37% increase in user-reported relaxation.
- 31% enhancement in sustained focus.
- 29% improvement in situational decision-making clarity.

DIFFERENTIATORS

- **Zero-Friction Workplace Integration:** Environmental application requires no individual employee opt-in.
- **Instant Operational Readiness:** Requires zero user training and causes zero operational downtime.
- **Rapid-Onset Impact:** User-reported improvements in focus and self-regulation manifest within the first week of use.
- **Agile Customization Capability:** Small-batch flexibility allows the deliverables to be tailored directly to specific customer pain points.

Operational Human Performance Support

Calm Work Solutions supplies drug-free, unscented flower essence preparations blended to support current and transitioning Warfighters in remaining calm and focused, allowing for preparedness and mental and emotional self regulation. Designed to use as an individual personal spray or as an environmental application for high-stress workplaces. It is hypoallergenic and non-irritating, making it ideal for use in close-quarters living, shared barracks, and close-contact unit environments. **100% Made in the USA.**

CORE COMPETENCIES

- **Custom Product Preparation:** Blending specific, unscented, and non-pharmacological flower essence solutions to match the targeted workplace or situational stressors of the client.
- **Ambient Workspace Application:** Producing delivery models optimized for systemic environmental and personal deployment.
- **Batch Manufacturing & Logistics:** Assembling stable product pipelines with reliable inventory management to ensure timely fulfillment.
