

Calm Work Solutions

Data-backed Performance

A five-week pilot study with 15 participants demonstrated rapid and sustained improvements in wellness and cognitive indicators:

- 65% improvement in restorative sleep quality.
- 37% increase in user-reported relaxation.
- 31% enhancement in sustained focus.
- 29% improvement in decision-making clarity.

DIFFERENTIATORS

- **Scalable Commercial Capacity:** Blends the high-touch agility of a specialized boutique firm with the contract manufacturing relationships required to fulfill enterprise-level agency requirements.
- **Zero-Friction Integration:** Workplace spray requires zero operational downtime or employee training, effortlessly supporting rotating personnel within a shared workspace.
- **Veteran Support & Canine Alignment:**
Formulations are optimized for both human clinical spaces and supporting veteran service dogs, facility therapy animals, and VA Police Canine Teams.

Whole Health Patient & Staff Support

Calm Work Solutions supplies drug-free, unscented, and non-pharmacological flower essence formulations that support focus, stress recovery, and situational self-regulation. We utilize in-house and established contract manufacturing partnerships to seamlessly scale production from initial pilot batches to large-scale, contract-level fulfillment. Hypoallergenic and non-irritating, our formulas deploy as workplace sprays or personal mists to directly optimize supporting calmer workplace settings, clinical staff resilience, and veteran stress recovery. **100% Made in the USA.**

CORE COMPETENCIES

- **Formulation Blending:** Custom preparation of non-pharmacological, unscented botanical flower essence solutions targeted to specific situational stressors.
- **Ambient Product Manufacturing:** Production and packaging of workplace sprays, personal mists, and concentrated kit deployment formats.
- **Scent-Free Solutions:** Developing zero-fragrance baseline formulations designed specifically for allergy-restricted, medical, and close-quarters facilities.
- **Contract Assembly and Scaled Fulfillment:**
Executing small-batch custom blending in-house with the capacity to utilize contract manufacturing facilities for high-volume contract orders.
