# Complete solution package

## White-label interfaces

- Web banking under your brand
- Native iOS/Android applications
- Telegram Mini App  
(banking + gaming modules)

## Financial Infrastructure

- Visa/Mastercard issuance  
(KYC and anonymous, no-KYC options)
- Multi-currency IBAN & corporate accounts
- Cards with KYC and without KYC
- BINs: UK / USA / CIS
- Issuers: EU, USA, CIS
- Named and segregated accounts
- Jurisdictions: Switzerland, Hong Kong, Canada
- Interchange — upon agreement
- Crypto processing,  
OTC desk, on/off-ramp solutions

## Ready-made modules & extensions

- Built-in crypto games:  
Dice, Crash, Slots, Roulette, Plinko
- Processing for gambling and betting
- Admin panel, risk monitoring, REST API

We can enhance the product with any required licenses and implement any functional module — for a neobank, crypto exchange, or casino. We offer dozens of ready-made solutions. The project is built on top of our own operating neobank, with in-house developers, legal team, and infrastructure. This ensures the fastest deployment timelines and guaranteed results.

**Suitable for: Gambling / Betting / Crypto business / Businesses working with Russia (MIR card issuance)**

# Licenses and Jurisdictions

## Core Licenses

- Switzerland: VASP
- Canada: MSB
- Hong Kong: SVF + crypto

These licenses are included as part of the platform.

## Additional Jurisdictions

- Offshore: Panama / Seychelles (company setup and full compliance package)
- Ability to add any licenses tailored to the project:  
EU EMI, Curaçao, Anjouan, and others

## Card Infrastructure

- Cards with KYC and without KYC
- Mastercard / MIR
- Issuers: EU, USA, CIS
- BINs: UK / USA / CIS
- Segregated accounts
- Interchange — negotiated individually

**We support the entire process: legal analysis, documentation, communication with regulators, and full regulatory compliance.**
