

Virtual Care for Families SchoolMed Program

Imagine never having to leave work again to take your child to a doctor's appointment or having your child wait to get access to strep, flu, or COVID-19 testing. These are just some of the benefits of having your child registered for Virtual Care for Families on their campus. Students can be seen by a pediatric provider on an iPad right from the school health room in as little as 5 minutes. **If your child has active Medicaid they can be seen for FREE!**

How Does It Work?

Step 1: Get Registered

Register your student for the SchoolMed telemedicine program during your district's online registration or directly at www.virtualcarefamilies.com/schoolmed.

Step 2: Receive Care Immediately

If your student is in need of care while at school, they can quickly be seen by a pediatrician or pediatric specialized provider through secure two-way video conference similar to FaceTime. If needed, we can conduct on-site testing for conditions such as COVID-19, flu, and strep throat and the proper care can be provided immediately.

Step 3: Get Well Sooner!

If needed, we can send a prescription to a pharmacy near you. We can also provide a full visit summary, and if desired, send the visit notes to your primary care physician.

Sign up your student at virtualcarefamilies.com/schoolmed

Free Care for Active Medicaid Patients!

Families with active Medicaid will receive free care and most uninsured families are treated at little to no cost!

All Texas Medicaid plans are accepted and families will not be charged for services their student receives

Commercial Insurance: Virtual Care for Families is in-network with most major plans (BCBS, UHC, Cigna, Aetna, Humana, etc.) and a telemedicine visit for your child typically costs the same as a normal trip to your child's pediatrician office.

*Visit www.virtualcarefamilies.com/schoolmed for full details on insurance coverage.

What's Included in SchoolMed?

In the school nurse's office, we can treat:

- Strep Throat (including on-site rapid testing)
- Flu (including on-site rapid testing)
- Common Cold
- Headaches
- Allergies
- Stomach Issues
- And many other ailments & minor injuries!

All at no cost for students with active Medicaid coverage
