A 24/7 AI agent that picks up every call.

Trained on your business. Live the same day.

- Answers instantly — day, night, weekends, holidays.
- Sounds natural. Choice of voice, accent and language.
- Knows your services, pricing, hours of operation and policies.
- Qualifies the inquiry and books the appointment in your calendar.
- Sends you a transcript and summary after every call.
- Integrates with your CRM, calendar, text and email.

From call to booking in under a minute.

01

Caller dials

The number can be your existing line via simple forwarding, or a new tracked number we provide.

02

Agent answers

Greets the caller in your brand voice. Listens. Asks the right qualifying questions for your service.

03

Books or routes

Books the slot directly into your calendar — or escalates to a human if the caller asks.

04

You get notified

Transcript, summary and outcome emailed to you. Lead lands in your CRM, ready to follow up.

No replacing your team. The agent handles the moments your team can't — and hands the warm lead straight to you.

Everything you need. Nothing extra to buy.

Setup & training

Built and live the same day. We script the agent from your website, brochures and a 30-minute call.

Voice & language

Choose the voice. Multiple accents and languages supported, including bilingual handling.

Calls & minutes

Unlimited inbound calls. No per-minute or per-call charges. No throttling at peak times.

Calendar & CRM

Direct integration with Google, Microsoft, HubSpot, ServiceTitan, Housecall Pro and most major systems.

Reports

Daily and weekly performance reports — calls answered, leads qualified, bookings made.

Ongoing tuning

We refine the script and flows monthly based on real calls. Changes go live in hours, not weeks.

One price. No surprises.

What you're probably wondering.

Will it sound like a robot?

No. Most callers don't realize. You choose the voice and we tune the script around real calls.

What happens if the caller wants a human?

The agent transfers, takes a message, or books a call-back — your choice, by enquiry type.

How long does it take to go live?

Same day for most clients. We build from your website and a 30-minute briefing call.

What if my receptionist already answers?

Rivora covers the calls they miss — out of hours, on lunch, when on the other line, on holiday.

Is data secure?

Yes. Calls are stored on US infrastructure. DPA available. Recordings and transcripts on request only.

Can I cancel?

Any time. No notice period. Keep your number.

Live within 24 hours. Three steps.

1

Briefing call (30 minutes)

Tell us about your business, services, common questions, calendar and CRM. We do the rest.

2

We build and test (same day)

We script and train your agent, route a test number, and walk you through the call flows for sign-off.

3

Go live (next morning)

Forward your line — or use your new tracked number. First booking usually lands within 48 hours.

Funding, Education, and Help.

Built for business owners and founders. Let us certify your business so lenders don't see risk, they see readiness.

You're not applying for funding. You're being certified as fundable.

01

Customer Response

How fast you answer, qualify and book inbound demand — the leading indicator of fundable revenue.

02

Booking Velocity

Volume and value of confirmed jobs over the next 90 days — what lenders care about, not just what's in the bank.

03

Recurring Base

Maintenance contracts and repeat customers — the predictability that unlocks better terms.

Never miss another customer.
