THE BOTTOM LINE MATTERS

ACTUAL DATA - REAL RESULTS

(Information provided by managers and/or delivery drivers)

November 15, 2025

Location	Average loads / week	Average Revenue per Load	Revenue Per Week	Revenue per Month	Revenue / Year
Salt Lake	11	\$600	\$6,600	\$26,400	\$316,800
Draper	14	\$600	\$8,400	\$33,600	\$403,200 BEST RESULTS
American Fork	6	\$600	\$3,600	\$14,400	\$172,800
Cedar	2	\$600	\$1,200	\$4,800	\$57,600 WORST RESULTS

IMPORTANT:

- A Retail represented, delivery fee are starting to be charged, as they should
Last Mile Industry Standard: \$80 - first 20 miles / \$80 - next 20 miles, then \$2.80 per mile thereafter.
- B There are at least 25 SKU deliverable in farm/ranch, home improvement and home improvement stores
- C Results vary at every location because of different management decisions.

CONVEYMO

Testimonials 2-2-2026

Company / Company Type	Territory	Title	Tesimonials
Farm / Ranch / Home Supply	Utah Idaho Colorado Nevada	Safety Officer	Our company started with five "live floors". We now have 22 and are looking to make sure every stores has one. I promoted them to the management team because we do not need CDL Drivers. Most imporantly they are much safer than other types of delivery equipment: no on and off forlifts, no dangerous side loading, just rear load and unload without the need of hand labor or unload forklift. Our number one store delivered over \$400,000 in product to customers great satisfaction in 2025.
Roofing Supply Outlets	Indiana Kentucky	Logistics Manager	We first saw a live floor self unloading cargo trailer in 2021. We soon purchased 5 more units and put them to work delivering 3,000 and 4,000 lb. pallets of roofing materials. We run 12 boom trucks but found that the "live floor" would deliver at 1/3 the cost and three times as fast. We still use the boom trucks for large loads but all of our small deliveries and overage pickups are dedicated to the "live floor" You know what, I don;t have to put up with CDL drivers
Turf Grass Sod Farm	Rocky Mountains	Owner	We started with one even though we deliver aproximately 20 loads of 20 pallets of turf to our market 80 to 250 miles away. We now have three units deliveing to retail outlets from Elko to Rock Springs, and Nephi to Big Sky. It is so much less expensive delivering small loads, even when we have to travel long distances. Anyone in the company can operated the equipment and they actually enjoy taking a break from their usual duties to hit the road and meet the customers.
Hardward Store	Pennsylvania	Owner	We have used our "live floor" since 2022 and are looking to purchase our next one. We deliver all types of palletted materieals, appliances, riding lawn mowers and we also take our garbage to the dump. We really appreciate the additional profits we get.
Delivery Company	Wyoming Colorado	Owner	I operated a box truck, a flat bed semi/trailer and a "live floor". I have one driver dedicated to the live floor because of the contract we have with our local home improvment - big box store.We have had issues from time to time but I've got to tell you that our representative has always responded immediatly. I'm looking forward to expand our operations with the live floor.
Landscape Supply	Florida	Owner	I deliver trees, bushes and lots of turf grass sod with my live floor. I am so glad to be out of the corporate America rate race. I look forwar to the future models as they become available.
Hardscape Suppier	Oregon Nevada Alabama	Owner	When they tell you that this equipment will handle 10,000 pounds of cargo, that is absoulutly true. We have been in operation for over 5 years and so glad we found a way to deliver 2 to 3 pallets without the need of heavy equipment, CDL drivers or hand unloading. It has changed our lives.
Lumber Yard	Idaho, Colorado North Dakota	Owners	We use live floor equipment in four states. Started 6 years ago. This equipment is dependable and something we can depend on every time. We are looking forward to expanding our operations with this live floor equipemnt.
